

Making Your Own QC VS. Using UTAK's 100% REAL Quality Controls

UTAK

Flexible team of Control Freaks ready to create the custom control you need

100

100% REAL Human Matrices and Specialty SMx Matrices

Access to over 200 different analytes to spike QC with

Peace of mind that your test will provide the right result, or we will remake your QC

Our QC is backed and accredited. ISO, CLIA, COLA, & CAP compliant

IN-HOUSE

You would need to weigh out the powder analyte and/or dilutions of each analyte

You will need to screen the matrices for drugs of abuse

You will need to source and store all analytes and matrices

If your QC fails, you will need to remake it and will incur all costs associated

Time consuming to source materials, make QC, bottle, cap, and then store vials.
